**CONSTABLE  
CARE**  
FOUNDATION

*The most important piece of road safety equipment you can give a child is knowledge!*

### Topics Addressed

Road, bike, and pedestrian safety

### Duration

90 minutes

### Audience Size

30 students

## About Constable Care Safety School

Based on best-practice principles of learning through play and simulation, students take vital road and transport safety skills out of the classroom and onto the streets, in a controlled, safe environment.

The Constable Care Safety School has been specifically designed to equip children with the skills and knowledge they need to stay out of harm's way. If you can't make it to the Safety School, no problem! The Safety School will come to you.

Safety School: On The Road is an engaging and educational road safety incursion designed to develop children's knowledge and understanding of road safety, safety resources, and signage in their communities.

Trained facilitators lead students through a series of activities, encouraging them to consider safety-conscious cyclist, pedestrian, and passenger behaviours, as well as using augmented reality app Arility.

With direct links to the Western Australian school curriculum, the engaging in-classroom learning techniques ensures students are engaged and can retain these life-saving messages.

*Book your Safety School: On the Road incursion!*
