Standing Out examines bullying and aggression, especially in regards to LGBTQI+ students. Using interactive Forum Theatre, students are encouraged to examine the impact of bullying on youth mental health, explore how they can be supportive to their peers, and celebrate diversity.

About Forum Theatre

This action-oriented education program uses interactive forum techniques to transform students from passive spectators into active participants, or 'spect-actors'. Students are encouraged to role play as they explore real-world scenarios and develop strategies for dealing with social issues and health pressures that affect their day to day lives.

The program fosters resilience and encourages youth to speak up and confidently enter into conversation about issues that concern them.
